

TRAVELLER PROMOTION

Instantly share your latest sensational images and movies, via a tablet or compatible smart device, with friends via social networks using the nifty built-in Wi-Fi connection. Plus, connect your camera to your compatible smart device which will act as a remote for your camera, allowing you to shoot from a separate location. With this impressive integrated Wi-Fi technology, the Nikon COOLPIX S9500 allows you to see, share and save more easily.

### BORDER CONTROL

You will never forget where you've been with the camera's in-built GPS function. It conveniently enables you to geo-tag your images, log your travels and retrace your journey on the computer to show your family and friends back home. To treat them to a film, take advantage of the camera's full HD recording ability with stereo sound – its dedicated record button allows you to pause and continue filming to make a seamless movie.

Choose your favourite images and have fun enhancing them on the spot with a retouch menu that includes popular filter effects and selective colour splashes.

# EFFORTLESSLY COOL

The super-stylish Nikon COOLPIX S9500 is brimming with technology; this compact camera was born to travel

**N**ow you can travel supremely light and bring home vivid holiday memories with the ultra compact Nikon COOLPIX S9500. With a range of high performance features to satisfy every level of photographer, jetsetters can capture precious moments with consummate control. Stylish, slim and easy to use, it's the perfect camera for effortless shots and HD movies on the go – wherever in the world you are.

Get closer to life with the camera's impressive 22x wide-angle, super-zoom lens – it's capable of turning distant subjects and scenes into beautifully sharp images so you will never feel far from the action. Together with an 18-megapixel CMOS sensor that offers reliability in low-light conditions and a NIKKOR lens with Vibration Reduction to avoid blur and camera-shake, all you need to do is focus on the moment.

The three-inch Anti Reflection OLED monitor makes photos and their adjustments brilliant to view, even in bright sunlight conditions. With a lightweight body and a sleek silhouette, the Nikon COOLPIX S9500 packs high-quality performance into a petite package, for an ideal digital compact travel companion, whatever your destination.
